Dimensions in mm

Note: For left-hand thread, Please add suffix "L", e. g. SI120T/K

Sliding contact surfaces: Steel/PTFE composite material

Design and application features:

Rod end of steel and zinc coated, with male or female thread, outer ring of bronze, with sliding surface of PTFE composite material, maintenance-free; inner ring of carbon chromium steel, spherical surface with chromium plating. It has characteristics of large load capability, easy mounting and dismounting and mechanism simplification.
